FULL STACK DEVELOPER

I am a highly skilled software engineer with over **4 years of experience** in **HTML, CSS, and Javascript**, and **3 years of experience** in **PHP and MySQL**. I know popular frameworks such as **Laravel and React**. I worked on several projects using native **PHP** and **MySQL/MariaDB**, as well as projects using **Laravel**, and have experience designing REST APIs.

TECHNICAL SKILLS

Languages	: PHP, SQL, Javascript, HTML, CSS, SCSS, TeX
Frameworks	: Laravel, PHPUnit, React.js
Libraries	: laravel-websockets, laravel-medialibrary, laravel-echo, react-router, styled-components, Socket.IO
Databases	: MySQL, MariaDB, SQLite
Methodologies	: BEM
Concepts	: OOP, Design Patterns, Regular Expressions, Accessibility (WCAG), REST, OAuth, ERD Design, SRS Design
Dev Tools	: Vim, XDebug, Vite, Git, Github Actions, Apache HTTP Server, Linux, SSH, cron, Docker

EXPERIENCE

Full Stack Developer

Storiagate

Mar 2024 – Present

Hybrid – Alexandria, Egypt

- Redesign company system and forms
- Made reusable components and modules using **PHP, SCSS, and Javascript**
- Ensure the cross-browser compatibility of the components
- Developed localization utilities - same interface as **Laravel** - to support multiple languages
- Refactored the codebase to reduce complexity and redundancy, and enhance cohesion
- Maintained the website on a Linux server

Vice Head of Web Development Committee

GDSC KSU

Sep 2022 – Apr 2023

Remote – Kafrelsheikh, Kafrelsheikh, Egypt

- Share knowledge and experience with my fellow members
- Demonstrated critical topics in core **Front End** technologies, including **SEO**, and **Accessibility**

Full Stack Developer

Freelance

Feb 2022 – Present

- Design and development of websites using **HTML, CSS, and Javascript**
- Design and development of back-ends using **PHP, MySQL/MariaDB**
- Added features and fixed bugs for live systems with legacy code
- Worked on REST APIs for medium-sized systems
- Analysis of stakeholders' requirements, and design **ERD**, **SRS**, and various documents
- Deployed and maintained websites on **AWS EC2** Linux server

EDUCATION

University of Kafrelsheikh – Faculty of Computers and Information

Bachelor of Science in Computer Science

GPA: 3.24/4 (With Honors)

Kafrelsheikh, Kafrelsheikh, Egypt

Sep 2020 – Jun 2024

PROJECTS

Online Chat

PHP, Laravel, HMVC, SCSS

[Demo](#)

[Private](#)

- Online customer service chat written in **PHP / Laravel**. Built with **HMVC** architectural pattern
- Utilized **laravel-websockets** & **laravel-echo** to provide real time communication
- Used **laravel-medialibrary** to facilitate media storing and retrieval
- Developed **REST API** for clients, and chat frontend using **Blade** and **Javascript**

Bookopia

PHP, Laravel, MVC, SCSS

[Demo](#)

[Source Code](#)

- A library management system written in **PHP / Laravel**. Built with **MVC** architectural pattern
- Designed and developed a clean and modern website using **HTML, and SCSS**
- Utilized **Laravel Components** to enhance the modularity of the frontend
- Extended **Blade** functionality by writing customized **Directives**, that help us write less code

Salem Clinic Website

PHP, MySQL, Javascript, Git

Private

- Designed and developed dynamic monolith website using **PHP, HTML, CSS, and JavaScript**
- Worked on admin panel providing article management, content management, and admins privileges
- Developed Markup to HTML library using **PHP, and Javascript**, utilized in articles creation, editing, and viewing
- Deployed using **Apache** server on **AWS EC2** instance, with domain name and **HTTPS** certificate configured
- Used a **cronjob** to backup data periodically

Clinic Management System (ERP)

PHP, MariaDB, Socket.IO

Private

- A **CRUD application** exposed using a RESTful API made with PHP
- Analysed stakeholders' requirements, deigned **ERD** based on this analysis
- Used **XDebug** to facilitate debugging process, and **PHPUnit** to automate unit testing
- Worked on many features that support bussiness logic, includes live queues, activity log, authorization rules and privileges, payroll system, patient management system, etc...
- Used **Socket.IO** under **Node.js** to build socket server to maintain live queues data between clients

CERTIFICATIONS

- [ITI - Web Development Using PHP \(150 hrs.\)](#)
