

FULL STACK DEVELOPER

Software engineer with **4+ years** of experience across the full stack — building REST APIs, ERP systems, and modern front-end applications. Delivered production systems in industrial, and commercial domains as both a freelancer and in corporate roles. Strong in back-end architecture (**event sourcing**, **clean architecture**, **Laravel**) and modern front-end (**Svelte**, **TypeScript**, **Tailwind**), with a consistent focus on **accessibility**, **SEO**, and cross-functional team collaboration.

TECHNICAL SKILLS

Languages	: PHP, Typescript, Javascript,SQL,HTML, CSS/SCSS, TeX
Frameworks	: Laravel, Node.js, Svelte/SvelteKit, React, Vue
Libraries	: Shadcn, Flowbite, Zod, Tailwind CSS, Socket.IO, ParaglideJs
Architecture	: Event Sourcing, Clean Architecture, Vertical Slices, REST APIs, HMVC, MVC
Practices	: Functional Programming, OOP, Vertical Slices, Design Patterns, Type-Driven Development, Storybook, CI/CD
Databases	: PostgreSQL, MySQL, MariaDB, SQLite
DevOps	: AWS EC2, Linux, Apache, Nginx, Docker, Git, Github Actions, SSH, Cron
Others	: WCAG Accessibility, Structured Data, Open Graph, Meta Tags, BEM

EXPERIENCE

Software Engineer BytesMaestros	Dec 2025 – Present Hybrid – Alexandria, Egypt
- Build and maintain full-stack features across business menu system (Menuzi), e-commerce platform, mobile app, and static websites using TypeScript, Node.js, and Svelte - Worked within a strict token-based and type-driven development discipline - Build multilingual UI for Menuzi, managing menus and content across multiple languages using component-level i18n patterns - Apply event sourcing and functional programming (functional core, imperative shell) in production - Implement SEO instrumentation (structured data, OG, meta) and WCAG accessibility across all products - Develop and document components in Storybook; maintain composable, pure component architecture - Collaborate with UI/UX and content teams, owning features from specification to production	
Software Engineer Gopuppy	Sep 2024, Jan 2025 – Dec 2025 Fulltime, Contract – Cairo, Egypt
- Developed and maintained ERP system using Laravel, MySQL and SCSS - Maintained Gopuppy linux servers from different providers - Developed CI/CD pipelines for rapid delivery - Continued engagement via contract during military service period - Developed multi-lingual marketing website with integrations with the ERP	
Full-Stack Developer Storiagate	Mar 2024 – Sep 2024 Hybrid – Alexandria, Egypt
- Redesigned internal system and forms; built reusable multilingual modules using PHP, SCSS, and JavaScript - Built reusable server-side modules and localization utilities mirroring Laravel’s interface - Refactored legacy codebase to reduce complexity and improve maintainability - Maintained production website on Linux server	
Full Stack Developer Freelance	Jul 2022 – Present
Designed and built REST APIs and full-stack web systems for clients in healthcare and industrial sectors	

- Implemented role-based authorization and **OTP-based** workflows across multiple client systems
- Built and integrated transactional email pipelines and in-app notification systems
- Built a resource management ERP for industrial corporates covering supply chain, procurement, HR, and employee check-in — using **Laravel, Svelte, event sourcing**, and **clean architecture**
- Maintained production customer servers on **AWS EC2** including ongoing updates, HTTPS, monitoring, and automated backups
- Fixed bugs and added features to live **legacy PHP** and **Laravel** ERP systems
- Conducted stakeholder requirements analysis and produced **ERD, SRS**, and **user stories**
- Implemented **CI/CD** pipelines and local domain name resolution for client deployments
- Designed and developed websites using **HTML, CSS/SCSS, JavaScript, TypeScript**, and component frameworks including **React, Vue**, and **Svelte**

Vice Head of Web Development Committee

GDSC KSU

Sep 2022 – Apr 2023

Remote – Kafrelsheikh, Kafrelsheikh, Egypt

- Share knowledge and experience with my fellow members
- Demonstrated critical topics in core **Front End** technologies, including **SEO**, and **Accessibility**

EDUCATION

University of Kafrelsheikh – Faculty of Computers and Information

Bachelor of Science in Computer Science

GPA: 3.24/4 (With Honors)

Kafrelsheikh, Kafrelsheikh, Egypt

Sep 2020 – Jun 2024

PROJECTS

Water Treatment Company ERP	<i>Laravel, PostgreSQL, Svelte, Event Sourcing, Clean Architecture</i>	Private
• ERP system for an industrial water treatment corporate managing supply chain, procurement, HR, and technical departments		
Clinic Management System (ERP)	<i>PHP, Vue, MariaDB, Socket.IO, Node.js</i>	Private
• RESTful API-based CRUD system with live queues via Socket.IO, activity logs, authorization rules, payroll, and patient management • Analyzed stakeholders' requirements, designed an ERD based on the analysis		
Salem Clinic Website	<i>PHP, MySQL, Javascript, Git</i>	Private
• Dynamic monolith with admin panel for content and article management • Built a custom Markup-to-HTML rendering library in PHP and JavaScript • Deployed on Apache/EC2 with HTTPS and automated cron backups		
Online Chat	<i>PHP, Laravel, HMVC, SCSS</i>	<u>Demo</u>
• Real-time customer service chat using laravel-websockets and laravel-echo • REST API for mobile app and Blade/JS frontend for customer service		

CERTIFICATIONS

- ITI - Web Development Using PHP (150 hrs.)
